

YOUTUBE VIRAL CHECK API

ViralCheck is a web tool that analyses your YouTube *title* and *thumbnail*, providing a probability score indicating the chances of your video going viral. It also offers improvement suggestions and compares your content with top-performing videos in the same category.

User Inputs:

- *Title*
- *Thumbnail* (Image upload or URL)

Outputs:

- *Virality Score: 0–100*
- *Revised Title Suggestions*
- *Improved Thumbnail Suggestion*
- *Top-Performing Video Comparisons*
